

Federal Geographic Data Committee (FGDC) and the National Spatial Data Infrastructure (NSDI)

Joy Pochatila, NSDI Geo Data Coordinator

08 April 2025

Agenda

- Intros
- Geospatial Data Act of 2018 (GDA)
- The Federal Geographic Data Committee
- NSDI 101
- NSDI Strategic Plan – How to achieve NSDI 2035
- Next steps - Implementation plan
 - Federal Example
 - SDI Modernization Project w/ OGC

History | *OMB Coordination of Geographic Information*

118 Years Coordinating Geographic Information

OMB has been the lead for federal geospatial policy since 1942.

Geospatial Data Act (GDA) of 2018

Established FGDC as “ the lead entity in the executive branch for the development, implementation, and review of policies, practices, and standards relating to geospatial data”

FGDC Roles and Responsibilities

National Spatial Data
Infrastructure

Data Stewardship and
Management

National Geospatial Advisory
Committee

Standards

GeoPlatform

Reporting and Audits

Who is the FGDC?

FGDC is a 32-member Interagency Committee.

FGDC Leadership

- Chair of FGDC: Secretary of the Interior
 - Traditionally delegated to Assistant Secretary for Water & Science
- Vice-Chair of FGDC: Director of Office of Management and Budget
 - Delegated to Office of the Federal Chief Information Officer
- FGDC Office of Secretariat (FGDC OS): USGS
 - Josh Delmonico, FGDC Executive Director, USGS Core Science Systems Mission Area
- GeoPlatform Managing Partner: DOI OCIO
 - Tod Dabolt, Chief Data Officer, DOI Office of the Chief Information Officer

FGDC Responsibilities

Federal

Oversight of NGDA Portfolio

Geospatial data standards

Operate GeoPlatform

Promote cost-effective strategies
(data collection, maintenance,
distribution, and preservation)

Report to Congress every 2 years

National

Develop and manage the NSDI strategic plan and geospatial data policy

Implement the NSDI (define roles and responsibilities for federal, state, tribal, and local governments, academia, and the private sector)

Advise Federal/non-Federal users of geospatial data on their NSDI responsibilities

Global

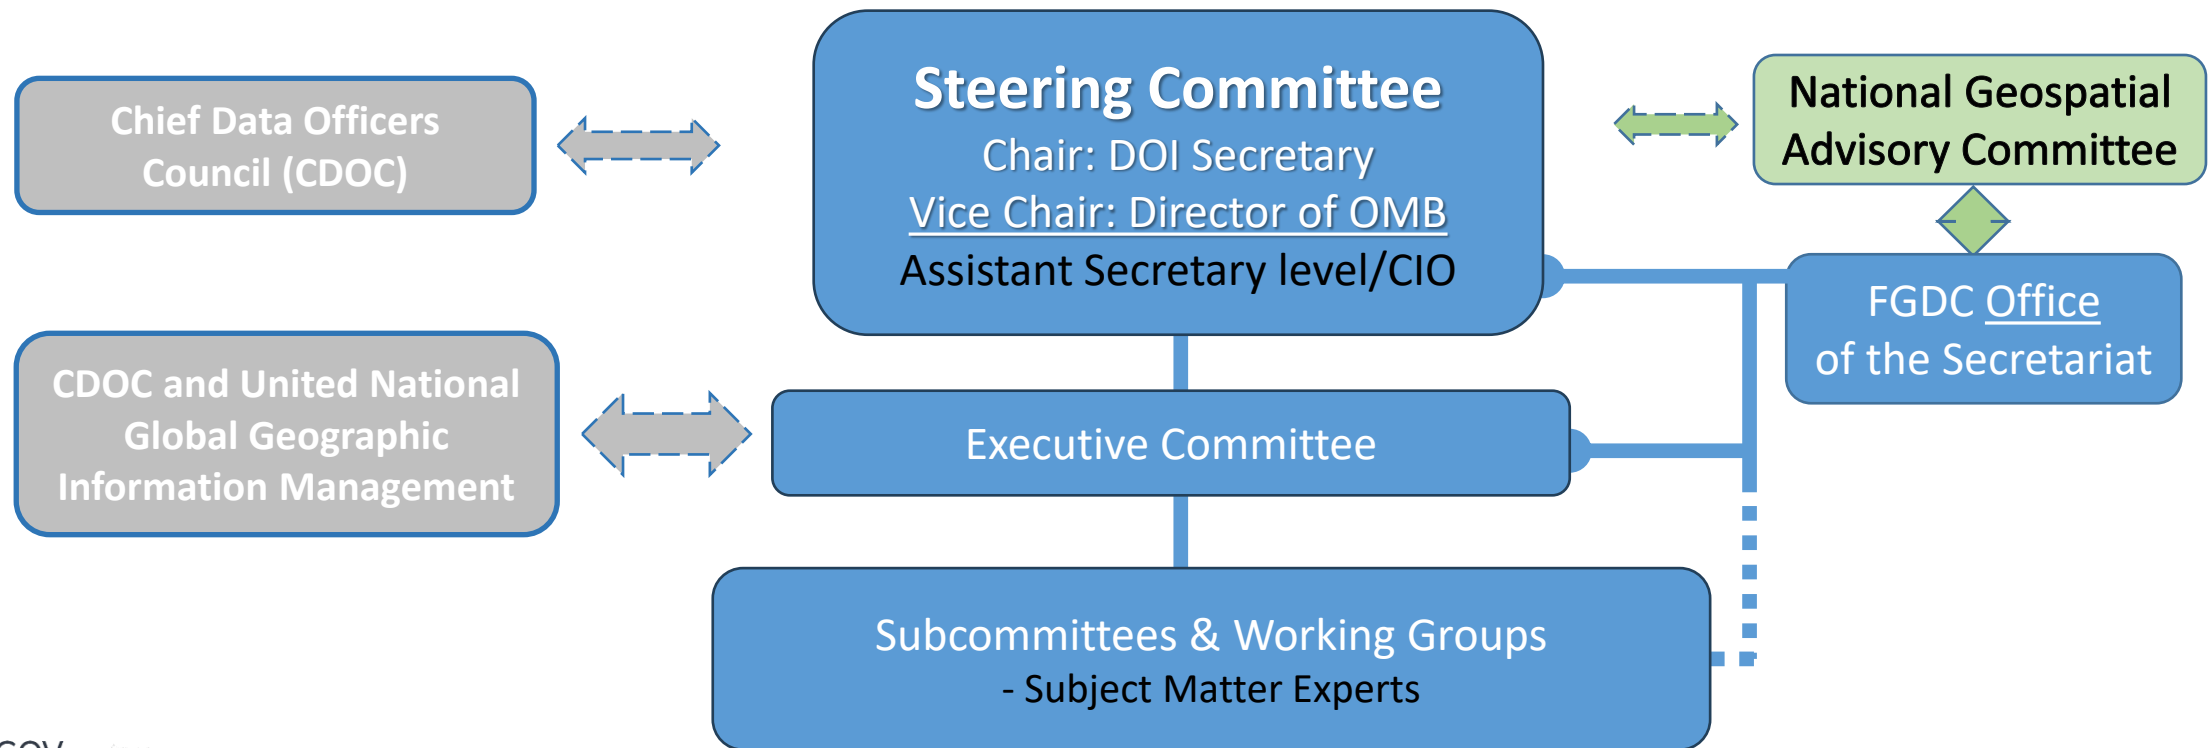

Coordination on global spatial data infrastructures

International geospatial data standards

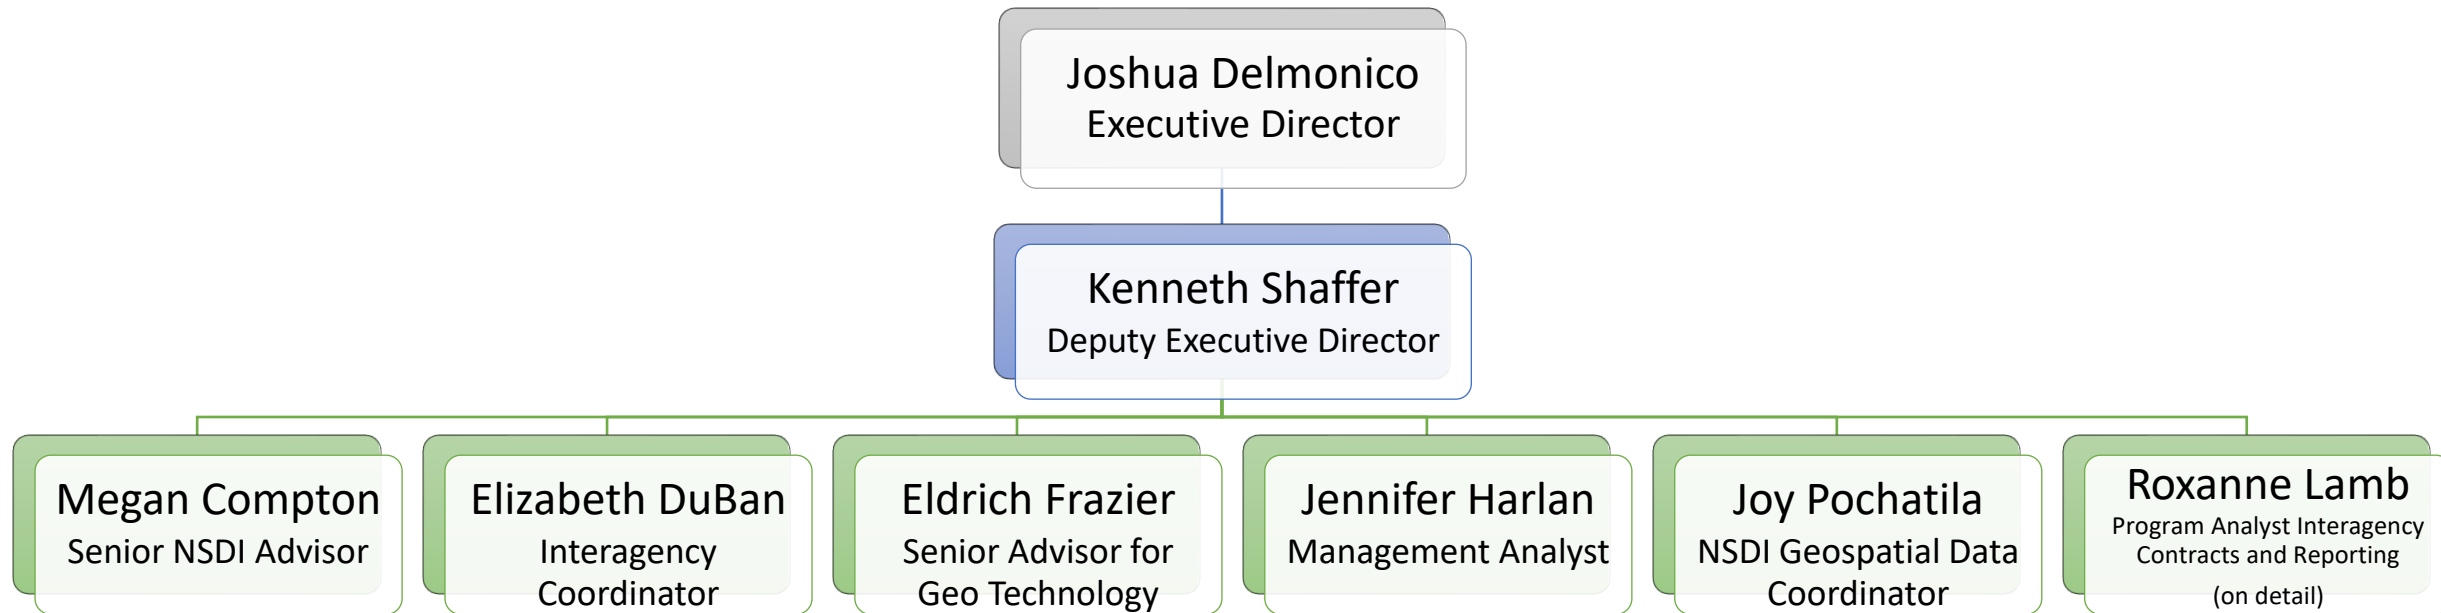

High Visibility and Impact.

FGDC Governance Structure

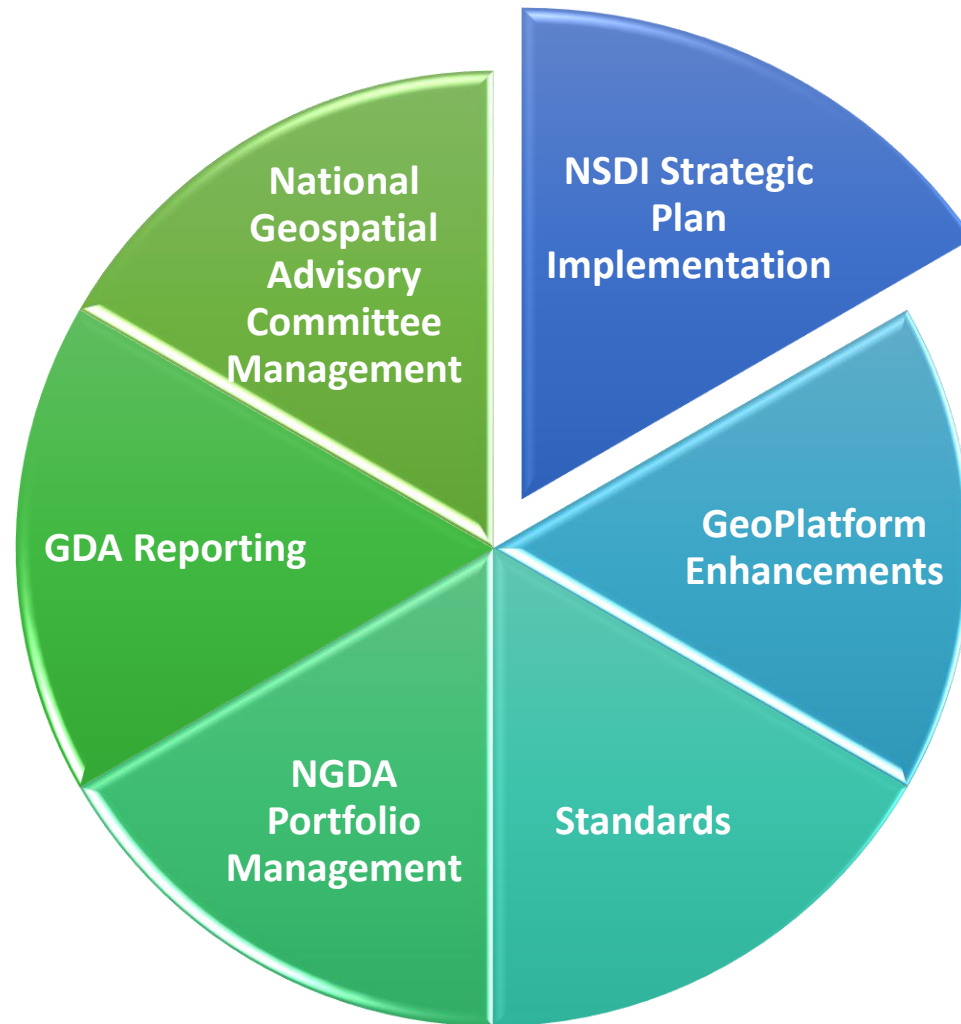

Federal Geographic Data Committee (FGDC) – 32 member interagency committee established within the Dept. of the Interior “which shall act as the lead entity in the executive branch for the development, implementation, and review of policies, practices, and standards relating to geospatial data.” (43 USC Ch. 46 – [Geospatial Data Act of 2018](#))

FGDC Office of the Secretariat

FGDC 2025 Activities

Stewardship of Data | *National Geospatial Data Asset (NGDA) Data Themes*

Unleashing Data for Public Good —
Facilitating Data for decision

The GDA requires the FGDC to designate NGDA data themes for investment and management by Federal agencies, for which the coordinated development, maintenance, and dissemination of geospatial data would benefit the Federal government and people of the United States.

NGDA Themes | 18

NGDA Datasets | 150

GDA Reporting and Accountability to Congress

GDA performance reporting data is available in multiple formats for different audiences:

Individual Agency and
NGDA Reports

Theme and Number of NGDA Datasets (174 total)	GDA 43 U.S.C. § 2805 (b)(3) (A) - (D) Requirements			
	(A) Geospatial data standards	(B) Nationwide population of the data theme	(C) Establish actions that support the goals and objectives in the NSDI strategic plan	(D) Addressing user needs
Address (1)	P	P	P	P
Biodiversity and Ecosystems (8)	P	P	P	P
Cadastral (19)	P	P	P	P
Climate and Weather (4)	P	P	P	P
Cultural Resources (2)	P	P	P	P
Elevation (15)	P	P	P	P
Geodetic Control (4)	P	P	P	P
Geology (8)	P	P	P	P
Administrative and Statistical Boundaries (37)				
Imagery (15)				
Imaginal boundaries (1)				
Land Use - Land Cover (15)				
Rail Property (14)				
Soils (5)				
Transportation (15)				
Utilities (2)				
Water - Inland (5)				
Water - Coastal (15)				
Water data as of September 30, 2021				
Use data standards				
Support coordination and partnerships				
Promote application of geospatial data assets				
Protection of privacy and confidentiality				
Declassified data				
Non duplication of data				
Ensuring high-quality data				
Point of contact				

GDA Summary Report

All GDA reporting data is available at: www.fgdc.gov/gda/gda-reports

National Geospatial Advisory Committee (NGAC)

Federal Advisory Committee reports to the FGDC Chair through the Designated Federal Officer

Input on Key Initiatives

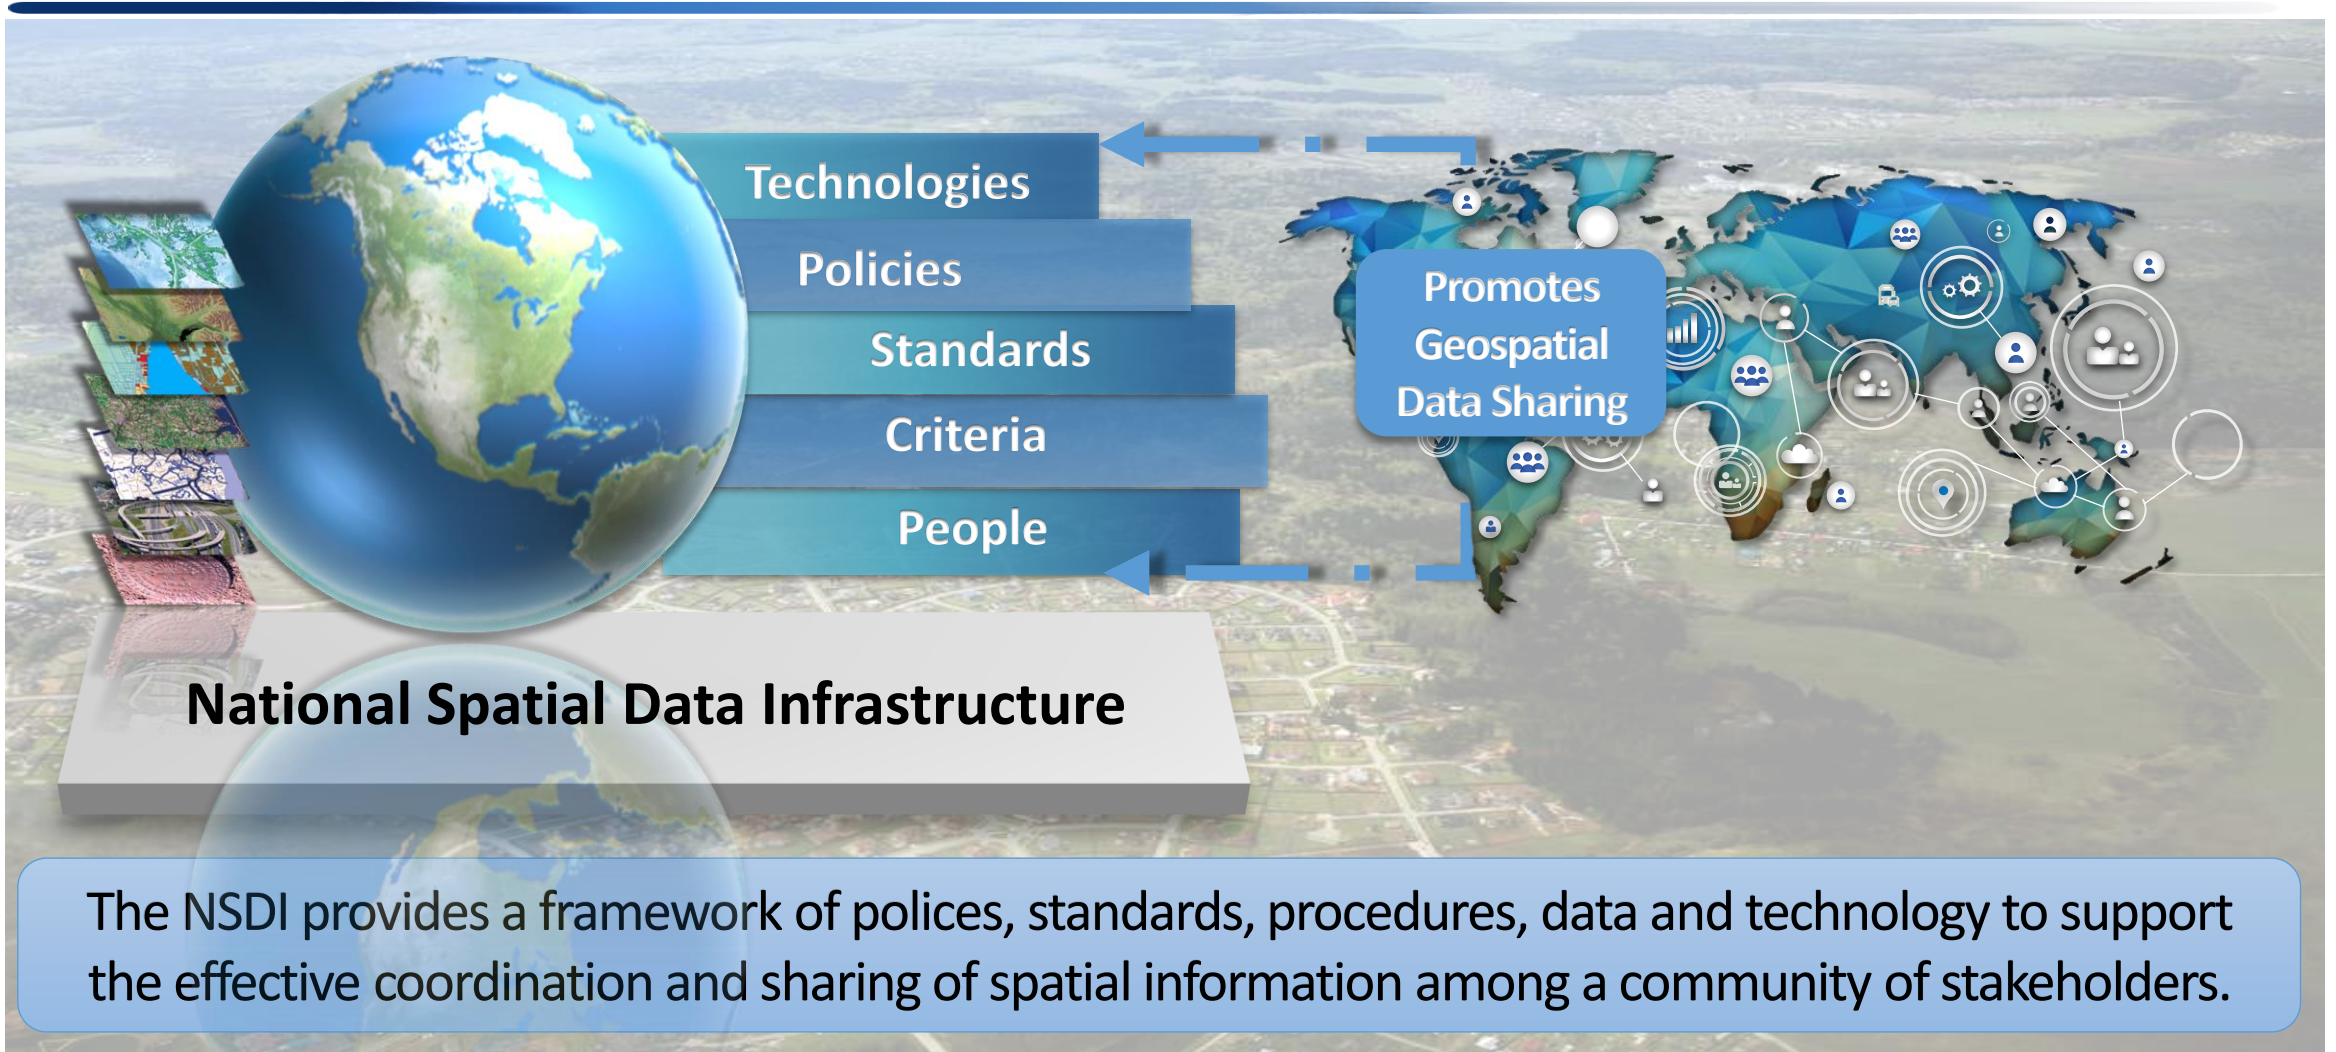

**Advice on Federal Programs:
3DEP and Landsat Advisory Group**

Cross-sector collaborative representation

NGAC meeting information and papers: www.fgdc.gov/ngac

NSDI 101: What is the National Spatial Data Infrastructure?

National Spatial Data Infrastructure – The Components

GeoPlatform.gov

- Open data and metadata required by GDA
- Ensures Federal geospatial data is Findable, Accessible, Interoperable and Reusable (FAIR)
- 120,000+ geospatial records
- 3,500+ GeoPlatform users

GeoPlatform.gov

Making Federal Geospatial **FAIR**

The Geospatial Platform is a cross-agency collaborative effort and Shared Service that embodies the principles and spirit of Open Government, emphasizing government-to-citizen communication, accountability, and transparency.

Enabling the NSDI with GeoPlatform

A Framework for Place-Based Understanding and Decision Making

Enabling Place-Based Understanding and Decision Making to Solve our Nations Toughest Challenges

GeoPlatform.gov connects stakeholders to information and infrastructure and provides applications and tools for understanding and decision-making.

2035 NSDI Strategic Plan: Building the Geospatial Future Together

- Developed by NSDI Core Team
- Broad stakeholder engagement
 - 1,000+ individuals and organizations
 - National Geospatial Advisory Committee
 - Outreach in conferences, webinars, and public review
- Endorsed by NGAC on October 16, 2024
- Approved by the FGDC on October 18, 2024

2035 NSDI Strategic Plan

Vision

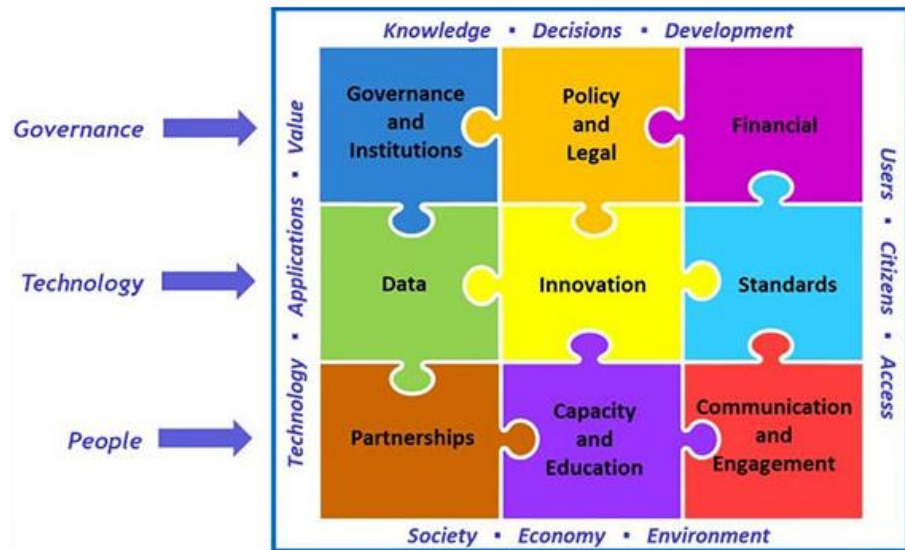

A seamlessly interconnected national geospatial ecosystem.

Mission

Deliver highly responsive, timely, dependable, and interoperable geospatial data, applications, and services that provide knowledge on demand and actionable insights to inform decisions; address local, regional, national, and global challenges; and benefit all people.

UN IGIF and US NSDI Strategic Plan

Goals	Objectives		
Governance: Implement National Governance and Collaboration	1.1 Governance and Institutions	1.2 Policy and Legal	1.3 Financial
Data and Technology: Strengthen/Adapt the Infrastructure and Leverage Advanced Technology	2.1 Data	2.2 Innovation	2.3 Standards 2.4 Infrastructure
People: Building a Skilled and Inclusive Geospatial Workforce for a Sustainable Future.	3.1. Partnerships	3.2 Capacity and Education	3.3 Communication and Engagement

“At the centre of this transformation from the SDI to the GKI framework lies the United Nations’ multidimensional Integrated Geospatial Information Framework, most known as the IGIF.”

Open Geospatial Consortium (OGC) SDI Modernization Project

- Project Goals:

- Demonstrate the vision in the NSDI Strategic Plan
- Showcase the latest spatial capabilities fostering data ecosystems
- Advance the **capabilities** needed to achieve the 2035 NSDI vision:
 - Global Interoperability
 - AI-driven Action
 - Self-Updating Maps
 - Intelligent Search and Discovery
 - Immersive Visualization
 - Geospatial Knowledge and Insights

- OGC will be issuing a 'Call For Contributions'

Movement to action requires a plan

Next steps for Implementation

The world needs dreamers
and the world needs doers.
But above all, the world
needs dreamers who do.

By Sarah Ban Breathnach

- Implementation Workshop
 - Test the template
 - Preferred/suggested format
- Draft guidance for the template
- Outreach to federal agencies
- Outreach to other sectors

Elements of the Template – Federal Example

DRAFT

PURPOSE: Advancing the technology, policies, criteria, standards, and employees necessary to promote geospatial data sharing throughout the Federal Government, State, Tribal, and local governments, and the private sector (including nonprofit organizations and institutions of higher education).

Goals	Objectives (Roles/Responsibilities assigned to organizations for each task)			
Governance: Implement National Governance and Collaboration	1.1 Governance <ul style="list-style-type: none"> <input type="checkbox"/> Task 1.1.1 - Establish decision-making structure <input type="checkbox"/> Task 1.1.2 - Establish process for tracking Implementation Plan tasks 	1.2 Policy and Legal <ul style="list-style-type: none"> <input type="checkbox"/> Task 1.2.1 - Refine GDA reporting <input type="checkbox"/> Task 1.2.2 - Identify policies inhibiting NSDI implementation and define risks to NSDI 	1.3 Financial <ul style="list-style-type: none"> <input type="checkbox"/> Task 1.3.1 - Identify resourcing gaps <input type="checkbox"/> Task 1.3.2 - Identify opportunities for efficiencies <input type="checkbox"/> Task 1.3.2 - Determine ROI metrics for NGDA datasets 	
Data and Technology: Strengthen/Adapt the Infrastructure and Leverage Advanced Technology	2.1 Data <ul style="list-style-type: none"> <input type="checkbox"/> Task 2.1.1 - Improve data accuracy <input type="checkbox"/> Task 2.1.2 - NGDA portfolio management <input type="checkbox"/> Task 2.1.3 - Coordinate with local governments 	2.2 Innovation <ul style="list-style-type: none"> <input type="checkbox"/> Task 2.2.1 - Collaborate with industry <input type="checkbox"/> Task 2.2.2 - Collaborate with academia <input type="checkbox"/> Task 2.2.3 - Identify cost savings/efficiencies when investing in new technology 	2.3 Standards <ul style="list-style-type: none"> <input type="checkbox"/> Task 2.3.1 - Enable multi-use of data <input type="checkbox"/> Task 2.3.2 - Collaborate with OGC/International standards community <input type="checkbox"/> Task 2.3.3 - Formalize standards governance for federal data 	2.4 Infrastructure <ul style="list-style-type: none"> <input type="checkbox"/> Task 2.4.1 - Ensure data discoverability via Data.gov and Geoplatform.gov <input type="checkbox"/> Task 2.4.2 - Employ tools for data management across the NSDI portfolio
People: Building a Skilled and Inclusive Geospatial Workforce for a Sustainable Future.	3.1. Partnerships <ul style="list-style-type: none"> <input type="checkbox"/> Task 3.1.1 - Federal Partnerships <input type="checkbox"/> Task 3.1.2 - Local and state partnerships <input type="checkbox"/> Task 3.1.3 - Academia and private industry partnerships 	3.2 Capacity & Education <ul style="list-style-type: none"> <input type="checkbox"/> Task 3.2.1 - Implement cost effective learning opportunities with academia and industry <input type="checkbox"/> Task 3.2.3 - Foster learning opportunities at middle/high schools <input type="checkbox"/> Task 3.2.3 - Utilize Pathways internships 	3.3 Communication and Engagement <ul style="list-style-type: none"> <input type="checkbox"/> Task 3.3.1 - Promote map stories of NSDI successes <input type="checkbox"/> Task 3.3.2 - Utilize advocacy organizations such as COGO
